MELODEON & COTTAGE ORGAN

EMPORIUM

GEORGE STREET, PETERBOROUGH.

JOSEPH. R. WALTON, AGENT.

Estey's Perfect Melodeon and Cottage Organ, established in 1846, (formerly Estey & Green,) the only Manufactory, on this Continent, of the Perfect Melodeon and Cottage Organ, with Patent Base Damper, Patent Harmonic Attachment, and Patent Manual Sub-Base. These inimitable instruments have won their way to public confidence purely on their merits, and not by force of extensive advertising and purchased recommendations.

Our recently constructed Cottage Organ, without the attachments, is unsurpassed by any Reed Organ or Harmonium of the size; but, with the Harmonic Attachment and Manual Sub-Base, it is pronounced by competent judges to be far superior to any other instrument of the class in the World. Its power, sweetness and variety of tone, simplicity of construction, and ease of management, recommend it to everyone as being all that is claimed for it, both for the Parlor and the Church.

The Harmonic Organ, for Churches and Public Halls, has a fine, powerful Pedal Base, with Independent Reeds; and, with the Harmonic Attachment, is believed to be the most powerful Reed Organ made, being nearly equal to a Pipe Organ of three times its cost.

All our Instruments are made in the most thorough manner, and warranted in every respect.

PREFACE.

In submitting the Counties of Peterborough and Victoria Directory to the Public, the Publisher is desirous of returning his sincere thanks to those who, by their liberal advertising and subscription patronage, have afforded him material assistance in the enterprise, and also to those gentlemen who kindly, and at considerable personal inconvenience, furnished him with the necessary information required for a work of this description.

The correct compiling of a Directory, even one of this size, is an undertaking of considerable difficulty, and let one be ever so careful, errors, both of omission and commission, can in some instances be discovered by persons who are disposed to look for them. Entire accuracy, in books of this class has never yet been attained, and owing to various reasons which need not be specified here, it is more than probable, never will be. Such being the case, indulgence is claimed for any mistakes that may be found in this work, the more especially as it is confidently believed that they are as few in number, as those that are in other books of the same description.

In fact the greatest possible care, has been taken to render the Peterborough and Victoria Directory thoroughly reliable, and, excepting the few errors that will creep in, in spite of the utmost vigilance, it can be depended upon, as being in the main, perfectly correct. It is hoped, that its arrangement will meet with the approval of its patrons, and that it will be alike to them, and the public generally, a business convenience of such a character, that having once experienced its usefulness they would not willingly be without on future occasions.

O. L. FULLER.

OXFORD PUBLIC LIBRARY

OXFORD PUBLIC LIBRARY

PETERBOROUGH.

The County Town of the County of Peterborough, is situated at the north-east corner of the Township of Monaghan.

It was first located in the year 1818, and the survey was completed in 1825, so that it yet lacks a few years of being half a century of age.

It is pleasantly situated, the ground on which it is built sloping gently from the west, towards the Otonabee River, a rapid and beautiful stream, which separates the town from the village of Ashburnham on its opposite bank.

The general appearance of Peterborough compares very favourably with that of any town in the province, and commercially speaking it presents an aspect of thrift and enterprise, which speaks in the highest terms for the business prosperity of the place.

Within the last few years a large number of handsome stores have been erected on George, and the other principal business streets, and the rapidity with which these have found tenants, is a sure indication of the healthy state of the commercial affairs of the town.

Many of the stocks in the various dry goods, grocery, hardware and book stores, &c., are exceedingly large, varied, and well selected, and are offered at prices which are as favourable to purchasers as it is possible to make them.

Peterborough is favoured in the possession of one of the best water powers in the Province—that supplied by the Otonabee River. From the town up the river for a distance of nine or ten miles this stream has a fall of about 280 feet, furnishing upwards of eighty-four thousand horse power. This immense water power has been made available to a considerable extent, but in consequence of its extensive character it is still capable of great extension.

Peterborough undoubtedly possesses all the requisite qualifications required for the making of an important manufacturing

town. The almost exhaustless power supplied by the previously mentioned river, together with the very extensive timber districts in its rear, offer facilities for manufacturing which are certainly equal to those possessed by any other community in the Province. By means of Railway communication the town is connected with all parts of Canada, and the neighbouring States. It is distant from Lindsay, 28 miles; Cobourg, 30 miles; Port Hope, 30 miles; Toronto, 90 miles; Hamilton, 127 miles; Kingston, 133 miles; London, 204 miles; Ottawa, 228 miles; Montreal, 297 miles; Quebec, 477 miles; Portland, 589 miles; Boston, 631 miles; and New York 697 miles. In 1852 the population of Peterborough was only 1,800. In 1858, it had increased to 3,500, and at the present time it is about 5,000.

The County Town of the County of Victoria is situated in the Township of Emily, near the centre of the County, and is built on both banks of the River Scugog. A few years ago Lindsay sustained a serious injury in consequence of a very devastating fire destroying the greater part of the business portion of the town. Although this event occurred but three or four years ago, scarcely any traces of it are now visible; while it was undoubtedly a serious calamity at the time, the results arising from it were of such a nature as to materially improve the appearance of the place, for the class of buildings that were built after it had taken place, were altogether superior to those which were in existence previous to its occurrence.

Lindsay is situated in the midst of one of the richest arable counties in Canada. Its local trade is excellent, and as the surrounding country possesses great agricultural advantages, it is not likely to decline, but on the contrary to increase yearly, as the various townships become more thickly settled, and also on account of its very central position rendering it easy of access from all parts of the country. It possesses a good water privilege, and is connected by rail with all parts of Canada. Lindsay is distant from Peterborough 28 miles; Port Hope 40 miles; Coburg 47 miles; Toronto 100 miles; Hamilton 137 miles; Kingston 143 miles; London 214 miles; Ottawa 238 miles; Montreal 307 miles; and Quebec 487 miles. Its population is about 2,000.

An intimate knowledge of the profession in its various branches, enables him to perform even the most complicated operations, in a satisfactory manner.

THE IRREGULARITIES OF CHILDREN'S TEETH, arranged by new appliances, this is an operation that frequently puzzles the ordinary dentist, it is considered the most critical, and important operation in dentistry, and one requiring the aid of a skilful and experienced practitioner.

Teeth Filled, and Artificial Teeth inserted satisfactorily.

Diseases in connection with the mouth cured, viz.—Caries and Necrosis of the Maxillary (Jaw) bones, different diseases of the Antrum, Facial Neuralgia, &c. With respect to the above he can speak confidently, having had a good deal of experience, and paid a great deal of attention to the study of them, and which can be testified to by individuals for whom he has operated.

TEETH EXTRACTED WITHOUT PAIN.
